SOFTWARE ENGINEER

Abu Dhabi, UAE • +971 54 235 9104 • chetcanilao@gmail.com • [linkedin.com/in/chesterkentcanilao](https://www.linkedin.com/in/chesterkentcanilao)

PROFESSIONAL SUMMARY

Software Engineer with 6+ years of experience building and maintaining high-precision, mission-critical systems, from real-time sports timing platforms to mobile applications powered by live event data. Experienced in developing reliable software solutions across desktop, backend, and Android platforms, supporting major international sporting events including the UAE President Cup. Proven track record of delivering scalable, dependable systems in high-pressure, live-event environments.

CORE SKILLS

Java	C#	JavaScript	Azure DevOps	Android SDK
REST APIs	MySQL	MS SQL	SQLite	Git
Jira	JSON	Firebase	PHP	ASP.NET/VB.NET

EXPERIENCE

Software Engineer

Oct 2023 – Aug 2026

Emirates International Endurance Village | Abu Dhabi, UAE

- Optimize and evolve real-time timing system software, sustaining high-precision performance, stability, and operational efficiency for live international events.
- Develop Android-based kiosk applications integrated with the timing system for on-site use.
- Built a secure API data-integration layer delivering real-time timing data to the company's mobile application.
- Set up and supported backend timing operations for major international sporting events, including the UAE President Cup, ensuring zero-downtime performance under high-pressure, live conditions.
- Partner with cross-functional teams to plan, implement, and deliver timely updates in fast-changing event environments.

Android Engineer

Feb 2022 – Apr 2023

Serino Payments | Manila, Philippines

- Designed and implemented EMV, contactless, and magnetic-stripe card payment applications for POS systems.
- Developed and maintained SDKs, including automated documentation batch-processing tooling.
- Managed Android payment applications on Ingenico and Global Payments POS terminals.
- Led code reviews in the absence of the team lead, upholding code quality and engineering best practices.
- Drove daily stand-ups to coordinate updates, unblock issues, and align team collaboration.

Software Engineer

Aug 2019 – Feb 2022

Sanyo Denki | Olongapo City, Philippines

- Designed and developed mobile applications that reached 7,000+ downloads on Google Play.
- Deployed apps to the Play Store and integrated Firebase Cloud Messaging for real-time notifications.
- Reviewed test results to guide iterative development and improve release quality.
- Mentored junior team members and supported live production applications.

EDUCATION

Bachelor of Science in Information Technology

2019

Subic Bay Colleges (SBCI), Inc.
